A show-ring shot from the "Record-smashing" 1970 National Polled Shorthorn Congress

The 1970 National Polled Shorthorn Congress Sale broke all records of previous Congress Sales in it's 30 year history. An all-time overall record of \$1,083 was established on 45 1/3 lots. The first Congress Sale held in 1941 averaged \$226. We've come a long way!! In the 1970 Congress Sale the first place bulls averaged a strong \$2,595. Sixteen bulls in the sale sold for \$1,000 or more. An all-time bull average was made.

Now we prepare for the 31st ANNUAL NATIONAL POLLED SHORTHORN CONGRESS SHOW AND SALE and we invite you to take part. It's the biggest event for Polled Shorthorn breeders in the year. Polled Shorthorns have made great strides in this past year. It's only through your efforts, attendance and cooperation that these things can be accomplished. Plan now to attend and don't forget the ANNUAL MEETING of the American Polled Shorthorn Society, Sunday, April 18th, beginning with the banquet at 6:00 P.M.

# STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers, sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial, for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

NECTOR OF ASHBOURNE - We bought Nector in the last Ashbourne Sale as herd bull insurance. Due to the fact that we are using Citation quite heavily, we are offering Nector in the Congress because we feel his ability as a sire would warrant greater usage than we are able to give him. You will recall he was calf champion in 69-70 at the International Livestock Show as well as at the National Western. Ashbourne Farms have some very promising calves at the farm. Selling 2/3 and possession.

THOMAS KODIAK 107A x - Certainly a lean promising spring yearling bull which we probably should be keeping. We have several heifers bred to him. Look at his pedigree. He will surely be a 100% dehorner. Thomas Perfect Shirley 16A, the dam, has to be rated as one of the consistent producing cows today. If you are interested and acquainted with herd indexing and production testing just note this cow's record. Her 1964 son had a weaning index of 114 and a 365 day index of 105. Her 1965 daughter had a weaning index of 114 and a 365 day index of 113. Her 1966 son had a weaning index of 96 and a 365 day index of 91. Her 1967 son had a weaning index of 113 and a 365 day index of 112. Her 1968 son had a weaning index of 113 and was an I.P.R. bull at Stanford, Montana. This being her 1969 son, he had not completed his test when he left Thomas Farms. Each of her calves has been polled and her 1967 son, Thomas Leader 30Y, is heading a strong performance proven herd of Arch and Peg Allen, Livingston, Montana. This cow has a 1970 calf, a red heifer by Kinnaber Leader 6th, that is among the good ones at Questing Hills Farms. WE ARE SELLING 2/3 INTEREST AND FULL POSSESSION IN THIS GOOD YOUNG BULL.

SCARCLIFFE BUTTERFLY R x - A heifer from the heart of our show string and a member of our winning Get-of-Sire. A first daughter of Boa Kae Royal Oak to sell at auction and one of the few who will ever leave Questing Hills. To add to her value, she has been mated since October 7, 1970 to Kenmar Ransom 32Z, the undefeated Grand Champion Bull at the American Royal in Kansas City, the International Livestock Show, Chicago, and National Western Stock Show, Denver.
